Yes po suki, 100% we are all about sharing the love :)

Simply write the recipient's name in the shipping address. If this is a gift or a surprise, please let us know in the order instructions box so we don't send a physical invoice with your order. Additionally, please specify the correct person to contact for amendments and provide separate contact details for delivery.

You can pay for the order online or via bank transfer. Please set the billing address and info as your details. If you would like to pay via cash, we can pick it up at your location for an additional fee.
