How do I know if I placed my order correctly?

Suise Ubeda - 2026-07-24 - Comments (0) - General

When you've successfully completed an order, we'll show you an order confirmation page as well as sending you a confirmation email containing your order details.

Can't see the email? You may need to double check your Junk or Spam folder. Some customers with active junk filters turned on may not receive confirmation emails.

You may also log into your account and go to 'My Orders' to see your most recent order.
