How do I know if online payment is secure?

Suise Ubeda - 2026-07-27 - Comments (0) - Online Payment

At Shop Suki, we prioritize your payment security by partnering only with trusted third-party payment gateways. Our payment partners—PayMaya, PayMongo, and BillEase—are PCI DSS Level 1 Certified, ensuring the highest level of security for your transactions.

When checking out, you'll be prompted to securely input your card details. Once the transaction is completed, you will receive a confirmation email from Maya, our third-party payment gateway.

If you have any concerns or questions about payment security, feel free to contact us!
